Supplier Management

iFoodDS

Increase efficiencies and gain real-time visibility across your supply chain

Improve your supplier and document maintenance with a more efficient process that gives you on-demand visibility. By using the iFoodDS Supplier Management solution, you will be able to ensure single source of truth associated with all documents, both internal and external. We provide a cloud-based document repository so suppliers and customers can easily submit documentation. This also ensures appropriate compliance, giving you the ability to access key information remotely and securely. Supplier Management provides a digital means to manage broad FSQA documents. Gain immediate, real-time visibility by accessing your documents from anywhere.

Improve supplier relationships

Reduce paper and gain real-time visibility across all growing locations

**Understand food safety compliance across your supply chain**

Standardize your Foreign Supplier Verification Program (FSVP) across your organization.

Increase efficiencies across your supply chain

- Save time by providing a means for your suppliers to upload documentation and assessments directly to a secure, cloud-based platform.
- Access all food safety documents through individualized, permission-based supplier portals.
- Simplify audit prep with organized online documentation.
- Reduce paper and travel time with our secure cloud-based solution.
- Save time during audits by quickly providing digital FSVP documentation.

Gain real-time visibility to ensure suppliers are meeting food safety requirements

- Ensure best practices are followed at all your growing locations or facilities.

- Take a proactive approach to your food safety management program by fully understanding compliance levels.

- Access real-time analytics on the documents that each of your suppliers has submitted and see which documents are missing or expired.

- Send configurable notifications to suppliers when documents are expiring.

- Easily manage foreign supplier approvals.

- Save time by digitally capturing FSVP requirements.

iFoodDS offers connected Food Safety, Quality, and Traceability solutions that make it easier to deliver wholesome, fresh, high-quality produce to consumers. With iFoodDS, you'll have the tools you need to transform your food safety processes, gain real-time visibility across your operations, and proactively assess and manage risks.
