

FSMA 204 Traceability Solution Provider Requirements

For suppliers looking for a cost-effective, flexible compliance solution.

Use the checklist below to evaluate whether a solution provider can help you meet your customers' data-sharing requirements and support compliance with the FDA's Food Traceability Rule (FSMA Rule 204).

	Fully	Partially	Not at all
Offers the flexibility you need to meet your customers' data-sharing requirements and your own data capture process	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• Enables data-sharing with multiple customers for one platform	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• Provides practical methods for capturing event data	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• Is scalable to support supplier organizations of all sizes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<hr/>			
Ability to securely collect and store master data such as product and location information, and event data such as initial packing, first land-based receiving, shipping, receiving, and transformation records for your organization:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• Securely send data via multiple methods such as API, ASN, flat file (csv), mobile applications, or partner integrations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• Securely store all master product and location data, and event data (FDA-required traceability records) for 2+ years	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• Easily integrate with existing workflows and systems to automatically record receiving CTEs and KDEs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Fully Partially Not at all

Provides visibility into your FSMA 204 readiness

- Enables you to traceback and forward through comprehensive reports and dashboards
- Offers dashboards to track your readiness to meet regulatory requirements

Breaks traceability down into manageable milestones

- Early focus on data capture and connecting with customers
- Guides you through testing connections and data-sharing
- Helps validate case and pallet labels, your traceability plan, and electronic sortable spreadsheet capabilities, and other FDA requirements

Ability to easily access your data and generate electronic sortable spreadsheets that comply with FDA requirements within 24 hours of their request.

Provides Support Services

- 24 x 7 technical support and assigned account managers
- Expert guidance and training resources

* *iFoodDS is one of the only technology solution providers that currently fulfills all software requirements*
